OPPOSITION TO DEI

Resolution #8: The California Republican Party supports President Trump’s effort to end DEI

Submitted by: Rudy Melendez

Committee Action: DO PASS AS AMENDED

Whereas, President Trump promised if elected to end discriminatory policies of Diversity, Equity and Inclusion (DEI), the goal of which is to use race and gender to hire, enroll and create policies that take away merit based systems for systems that create winners and losers, and

Whereas, President Trump upon taking office promising to end all Federal government DEI programs, has ended the employment for those in government promoting DEI and ending contracts with organizations and government contractors that use DEI, and

Whereas, The University of California system continues to use DEI as a policy, discriminating against some students, and the State of California still allows its agencies to use and promote DEI, and

Whereas, the people of California deserve to be treated equally, without regard to gender, race or national origin,

Therefore, we the California Republican Party thank President Trump for ending DEI on the Federal level, and

Further, we ask that the State of California end the discrimination of DEI in our colleges, government agencies and in the workplace.

Respectfully Submitted,

Hon. Fred M. Whitaker
Chairman, Resolutions Committee
